

## Luca Mundaca Quotes

"Luca Mundaca is a gifted young singer and songwriter. Luca's music is a glorious blend of her native Brazil with a touch of downtown New York. She mines the deep melodic roots of her country's heritage, creating musical gems that she polishes with the lightest of touches. A talent to watch."

**- Tom Evered, General Manager and Senior Vice-President Capitol Jazz and Classics**

"Luca Mundaca is a singer and songwriter whose work I have been aware of since she arrived in NYC. Her abilities are unlimited; she has a stunning voice of great intimacy and emotion, and her songwriting is first rate. It is rare to find in an artist both the capacity to write brilliant melodies & profound lyrics, and to then perform them at such a high level of musicianship. She simply has it all."

**- Seth Rothstein, VP Marketing, Sony Legacy**

"'DAY BY DAY' by Luca Mundaca - Simply the Brazilian bomb - great musicians backing LM's superb vocal talent on superior compositions that respect and update the bossa/samba tradition - comparisons with the Gilbertos are inevitable and justified, she really is that good..."

" .... Luca Mundaca's performance on her new release 'Day by Day' is incredible... the quality of her voice is mature and holds great depth, of course, ... but it was the 'attitude' that turned my head in the studio ... The first time I heard 'Ha Dias' I knew that I was listening to a star... and a huge hit. Luca's unique bluesy delivery 'tells the story' ... each song framed by incredible grooves, Brazilian rhythms ... and unforgettable melodies. Luca's acoustic guitar bonds the music to her voice... as I listen to her music, there is a mystique that surrounds her style... but the music remains light and fun at the same time.. I am majorly impressed with Luca's creativity and the production on 'day by day' ... well above what you would expect from a newcomer to this business. Luca is for real. I now keep the copy of 'day by day' in my personal car stereo... the greatest compliment I can pay an artist"
